

Voting to allow the expansion of media holdings absolutely puts this democracy at risk.

I've voted conservative/republican the last 16 years - I'm not an opposing "bleeding heart liberal" whining about corporate America. I have voted for George Bush and have vocally supported his administration.

In this instance, I honestly believe that the decisions you are about to make can adversely affect the course of this nation and reduce the amount of freedom and power the individual citizen has. It will be a grave mistake if you allow the continued consolidation of media.

Consider deeply the very reasons the law was enacted in the first place.

Thank you for your time
